

Getting Street Smart ©

Designed to educate adults on:

- The criteria of addiction
- The disease concept
- Signs and symptoms of drug use
- Specific effects of drugs
- The process related to chemical dependency
- Protective and Risk factors
- Current trends
- Concealment of drugs

Getting Street Smart is designed to meet a genre of people. The Power Point Presentation is approximately 3 hours long. It creates discussion with its open forum. The program can be tailored to your specific needs and requests. Attendees are supplied with resource information.

The program is presented by a Prevention Specialist/Treatment Specialist.
